

Adventures On Wonderland

Food & Beverage Policy

Adventures On Wonderland tries our best to operate and provide a safe environment for every child and guest to our facility. As such, we request that every guest adhere to our ‘*Outside Food & Beverage*’ policy.

1. Food and/or beverages other than those items purchased from our Snack Hut or on-site vending machines will not be permitted within the confines of our facility
 - **1.1** Any open food and/or beverages found within our facility shall be removed
 - **1.2** Any parties not adhering to the ‘Food & Beverage Policy’ may be asked to leave the Adventures On Wonderland facility

2. No food shall be brought into Adventures On Wonderland unless it falls under our exemption list AND is approved by management
 - **2.1** Any requests to bring in ‘outside food’ must be made by the requesting person(s) in writing to the management a minimum of 3 days prior to the visit
 - **2.2** All foods must be ‘Nut-Free’
 - **2.3** All foods must have an accompanying ingredients list. This list must be submitted to the management prior to the visit AND be approved by the management of Adventures On Wonderland
 - **2.4** All food/beverage shall be traceable to the source of manufacturing
 - **No ‘homemade’ food/beverages shall be permitted inside our facility**
 - **2.5** Any approved ‘outside’ food shall be kept to a minimal amount. Exempted food/beverage will only be permitted in the amount to accommodate the effected person(s)

Reasons for our Policy

- a. We are a business. In order to survive we rely on various revenue generators, one such being our food and beverage sales. We feel that our food & beverage items are fairly priced and a good value.
- b. To be able to provide the safest facility for all guests we try our best to have knowledge of all products within our facility. As such, we track all food and beverages that enter the facility from our distributors to ensure quality, ingredients, and contents. In order to adhere to this, we request that no outside food or beverages enter our facility.
- c. In the event of an allergic reaction, knowing what items are within our facility allows Adventures On Wonderland employees, parents, guardians and emergency response workers to react to the situation in an appropriate and timely manner.
- d. In order to help minimize public health risk, we request that all food, beverage and products be traceable to the point of origin (manufacturer). In the event of an illness, outbreak of disease or contamination having access to the point of origin is extremely important and helpful to us, health care professionals, and the London Middlesex Health Unit.
